- Marathi
- Hindi
- English

## INTEREST

- Filmmaking
- Listening Music
- Learning new Language
- Volunteering

## Birthdate :-

10 February 2001

## Citizenship :-

Indian

## PROJECTS

News Network

Jan '23 - Mar '23

Academic Project

B.Sc (Computer Science)

- This project was spearheaded by group of 3 students, including myself.
- One of the core functionalities of "News Network" is its real-time news display. When a user enters a keyword of interest, the application fetches and presents a stream of news articles related to that keyword on a user-friendly webpage.
- "News Network" harnesses a versatile technology stack, encompassing HTML, CSS, JavaScript, Bootstrap, Java Servlet, and JSP (JavaServer Pages). In addition, we seamlessly integrated a News API, enabling the application to retrieve and present a vast array of news articles available on the internet.

Online Bookstore

Aug '23 - Oct '23

### Personal Project

- The "Online Bookstore" is a personal project that serves as an all-in-one platform for book enthusiasts to discover, explore, and shop for their favorite reads in the digital realm.
- My personal project, the 'Online Bookstore,' utilizes HTML, CSS, JavaScript, Bootstrap, Java Filters, JDBC, Java Servlets, and JSP. It also seamlessly integrates a secure payment gateway for hassle-free online transactions.
